

**NOTICE OF PLANNED BALLOON FLIGHT**

**PROPOSED LANDAU, LANDAU II & LANDAU III SOLAR FARM  
SR 32/MOUNTAIN ROAD (SR 213)  
TOWN OF ULSTER, ULSTER COUNTY, NY**

**Tuesday April 24, 2018 3:30 PM**

To support our evaluation of local community solar farms, project sponsors plan to fly several weather balloons to simulate the maximum height of the solar panels. These 3-foot diameter balloons will be flown at a height of 12 feet and will be sited at the proposed Landau, Landau II and Landau III Solar Farms. The balloon flight is tentatively scheduled for Tuesday April 24th at 3:30 PM and is weather dependent. If winds or weather conditions are not favorable, this work will be rescheduled. It is anticipated that red balloons will be flown at 12 feet and yellow spotter balloons at 100 to 120 feet, all subject to field conditions.

This work will aid the Town in evaluating the potential visual impacts of the proposed facility located on the property located between State Route 32 and Mountain Road (State Route 213). The sites are identified on the Town of Ulster Tax Map as Section 56.14 Block 1 Lot 24 (Landau), Section 56.14 Block 2 Lot 18 (Landau II), and Section 56.14 Block 2 Lot 36.1 (Landau III).

Once the balloons are up, it will remain aloft for approximately two hours (again subject to weather conditions) to allow project representatives to photograph the balloon from sites within a five (5) mile radius of the site.

Please consult the Town's website for any updates or changes to this schedule.
